Stetson O. Sprout walked into the Louie Carter-Russell school class at Tuesday's election. By that I mean holding the honor of leading the ticket in his county. Back in 1936 when young Morrow was a candidate for state representative he rolled up more votes throughout the county than any other candidate. Then in 1938 when J. Louis Carter was a candidate for re-election to the office of criminal court clerk he polled a huge majority over his opponent and was high man throughout the county. Now Stetson Sprout enters the same class.

Some folks couldn't make up their minds after the election whether it was Gordon Vann or Shelby Buford who would go into the second primary with Herbert Beck. I read the returns in the Palm Beach Post Wednesday morning and was reasonably sure that Vann was the man. Those boys on the Post just don't do any homework on elections. They have an efficient band of reporters throughout the county and when they need returns from various precincts you can bet they'll get them dollar that they're about right.

The sheriff's election in the Glades created more interest than any other race. Four years ago Jack Baker received only a handful of votes in Canal Point. This time the count stood Lawrence 281 and Baker 212. In Pahokee four years ago Lawrence ran away with Baker but Tuesday the incumbent carried the precinct by only 5 votes. The final county-wide tally was Lawrence 7596 and Baker 5564.

The final count in the state representative race was Beck 3,266, Vann 3,829 and Buford 3,503. Beck and Vann will battle it out in the second primary on May 22nd.

Uncle George Butler almost polled enough votes to do away with a second primary—not quite. The count was Butler 7,094; Arnette 4,792; Roebuck 2,567. Arnette, George and Arnette will go into the second primary.

In choosing our returns we had Francis P. Whitehair in the second primary. Already two heard words of people say they were going to swing to Whitehair.

"The big surprise of the election was the strength of Bernard Fadden in the Senate race. I rated him last or next to last in the race and I know a lot of other people who did likewise. However, he came in third and pushed Jerry Carter for a place in the second primary. I think the A. A. review and Carter in the second primary.

Governor Clegg's slight showing was disappointing to a number of his loyal supporters.

The Miami Herald and The Miami Daily News were supporting Holland for governor. Paty was high man in Dade county with Whitehair second and Holland third.

Millars Reach 27th Milestone

Mr. and Mrs. Malcolm Millar, on Sunday, reached the 27th anniversary of their marriage. They have resided in Pahokee for a number of years and "Mal" as he is commonly known, is connected with the Gold-Dobrow theatrical enterprise, being the manager of the colored theatre on Belle Glade road.

More Machines On Two Precincts Is Cure For Voting Ill

Pahokee Citizens Subjected To Long Wait In Line To Vote

The election for state and county officers in the Pahokee precinct, which was held at the B. Elford garage, showed that one of two things would have happened before another election, in order to properly care for the voting of the election roll, one more voting machine, or an additional voting place.

The polls opened at eight o'clock and the line to vote was completed by the board around 2 a. m. 940 votes had been voted at sundown, there were several hundred voters at the polls lined up to exercise their electoral rights. That this might be accomplished, all were herded, so to speak, into the rear of the building to wait their turn at the machines. Some voters waited more than three hours for their right, while possibly several hundred waited away without the vote.

When the election for Representative was read, and Gordon Vann, had shown such a sweeping victory in Pahokee as well as in Canal Beach, the voters were much elated and took occasion to shout it.

Paty, of West Palm Beach, for Governor proved a big winner in most of the Glades precincts. Cox, for senator, led in the race at the Pahokee precinct.

Mack Todd, of Pahokee, who was the only Glades candidate for county office, that of Tax Collector, made a good showing in the Glades, but failed to gain voting strength in the balance of the county. Stetson Sprout, incumbent, made a run away race and won in without a run off, count.

The Constable race Francis Cross rolled up a sweeping margin at Canal Point, while Albert Gant led in the Pahokee precinct. The voters of the Glades, by around 175 votes. Cross has been a deputy sheriff and road patrolman for several years. Judge Stetson Sprout, for police judge, had no opposition and will act in that capacity during the coming four years. At Belle Glade, John Kirk, for sheriff, rolled up a big margin. Walter Clark, and D. C. Coleman, present sheriffs of Broward and Dade counties, will retain their offices, while over in Martin county, there will be need of a run off, as the present sheriff failed by a 100 vote to get in the clear.

Plans were discussed for a rummage sale, the date to be announced later.

Mrs. Brooker announced that the next meeting would be installation of officers with the retiring officers in charge.

The vote was a Beacham 11,257 and Abbott 9,063. The 1939 Florida senate election and Beacham president for 1941 but the office was contingent upon his re-election.

A number of landowners now have a right to collect damages from the government for crop losses due to flooding of their lands. Rep. Charles D. Abbott, who has been the problem before he drafted his resolution, according to reports from Washington, it has been proposed that a dike be constructed across the lake to protect the islands. The only protection now available to landowners is to throw up dikes around their own land, at big expense, they say—Palm Beach Post.

Bean Shipments In Lower Bracket As Season End Nears

First Tomatoes In Carlots Leave The Glades This Week

The vegetable and shipping season for many farm communities is fast growing to an end for 1940. While beans have been picked in bountiful measure, the past week and sold at a satisfactory price, and the fields will be abandoned for the growth of the rag and careless weed crops. Many farmers will not have their late crops, but will permit them to go to seed for use next fall.

Tomatoes are now coming in at packing season more liberally and the coming week will see much activity along that line. Tomatoes are now bringing around \$1 a bush. Potato movements are at a standstill, no digging having been done for the past two weeks.

Celery continues to be in good demand but the present high spot will hasten the end. Prices have hovered around \$2 a bag for the choice grade.

Lord and Price, who for years have done their farming on the Brown farm, with exception of celery, brought their season's activities to an end this week. Price states that it has been a most successful year.

At first was indicated. His firm shipped over 2000 baskets of romaine and sold it in New York at a good price, which caused a windfall, as it was not thought that this could be raised here successfully and marketed with a profit, but the impossibility was overcome, so that next year more (Continued on page 4)

McClure And Mackey Re-Elected And Hugo Boe Named

The municipal election in Pahokee broke a record when 1044 votes were cast for city officers. The polls closed promptly at sundown, and several who came late to vote were unable to do so.

All during the day there was activity among the candidates and their workers, to get out the votes. Pahokee people did not indicate on their vote that they cared for any change in the municipal family, as Dulany, for Mayor, Walter for Clerk and Baxter for Chief of Police had good leads over their opponents.

In the councilmanic count, Hugo Boe, a former councilman, took the lead and held it through the long count, with McClure and Mackey doing nearly as well. It was a fight between Lindrope and Waldschlager with the latter leading by three votes over the former.

Red Godwin for Mayor received 57 votes. The count of the ballots was completed in the city at five o'clock, and when tabulated, the votes stood as follows: For Mayor: Dulany, 601; Rogers, 396; Godwin, 57.

DAYLIGHT SAVING AGITATION

There seems to be a widespread demand on the part of many Floridians for daylight saving time.

They argue that it would be much better to begin work an hour earlier in order to quit earlier and have the additional time at the end of the day for daylight recreation.

With the days growing longer, the extra hour would be welcomed by many different groups of employees. Instead of quitting work at what is now 6 p. m., they would quit at 5 and still have two hours, or more, of daylight in which to play golf, go swimming or fishing, putter around the yard or engage in other recreations of their choice.

Some individuals opposed to daylight saving time or indifferent about it say they wouldn't get to bed any earlier and others say it would cause them to miss some of their favorite radio programs.

Agitation for daylight saving was begun at a meeting held recently at Ocala. If the schedule was adopted, it would have to be statewide in order to avoid confusion.

THE MAILS TO DELUDE

Somebody who obviously was an able philosopher observed long ago that three of the strangest things in the world are the way of a serpent on a rock, the way of a ship in the breeze and the way of a maid with a man.

Lakeland postoffice officials have reported another phenomenon which may well be added to the philosopher's list. Chain postal cards relating to endless prayers and handkerchief clubs are being showered upon the local office in increasing numbers. Officials are plucking as many as 50 cards a day from the mails. Said one of the clerks:

"This is a prayer of safety. This prayer must go all over the world. As soon as you get this card, copy and send to 13 other persons and on the 13th day you will receive \$86. One woman made fun of this card and on the 13th day her daughter went blind. Pay attention to this card."

The unsuspicious postoffice department has announced that any person mailing such stuff is subject to a fine of not more than \$5,000 or imprisonment for not more than five years, or both.

Such cards may fall into the hands of persons as misguided as the senders and frighten the daylight out of them. The whole scheme is a primitive play upon superstition and generates a false security.

It is comparable to consulting a dream book for a bolita number. Man creates a world of illusion which he cannot get by practical application. —Lakeland Ledger.

Scottish Rites' Gather In Tampa

The Orient reunion of the Scottish Rite consistory of Key West, Miami, Lake Worth, and Tampa, at the Tampa Cathedral Saturday and Sunday, was the largest attended and the best reunion held in the past six years. A half hundred members from South Florida had a chartered coach over the seaboard for the trip. The Tampa fraters certainly set a high mark for hospitality and entertainment and next year, when Miami entertains the group, they will need to do some fast hustling to compare.

The visitors saw the 28th degree conferred by the Tampa boys and it was a decided treat, as this Degree of the Sun, in consistory grades, and the best reunion held in the past six years. The Advisory committee of thirteen, of the Tampa Denolay chapter, conferred an impressive Masonic skill, and the Chapter conferred its entire ritualistic ceremonies in a highly complimentary manner.

On Sunday afternoon, the officials staff of the Knights Commanders of the Court of Honor conferred in a most dignified manner the ceremonies of investiture and presentation of jewels, for seven men who had been elected to be members of that high circle by the Supreme Council.

James Donn, Grand Commander, was in charge of this ceremony and also gave a most remarkable address "The Meaning of America." The men of the rite, who were given the "red cap" honor were: "B. H. Blaker, F. S. Penagrat, John M. Ramsey of Miami; John C. Park, Key West; Henry Gliddens, Jr., George Taylor, Tampa; and S. C. Minshall of St. Petersburg. A delegation of 200 members attended divine services at the First Presbyterian church on

THANKS FOR YOUR CO-OPERATION

Although I did not seek re-election as a member of the city council in Pahokee, I desire to thank the citizens of Pahokee for the splendid co-operation during my term.

And, to the members of the present council I extend best wishes and assure them that whatever I can do as a private citizen to make their tenure of office a complete success, I will do.

V. L. GEIGER

My Appreciation

I consider elections as friendly and neighborly contests in which citizens express their preference in the selection of officials.

I am conscious of the trust reposed in me at the hands of the voters and shall not violate that trust.

During the coming two years I shall strive even harder than in the past to make Pahokee and surrounding community a better place in which to live.

acreage will be planted to — this crop. Escarcote also did well. Bob Creech also farmed 150 acres at the Brown's farm and this year, and established that chiro could be profitably raised here. Tomato and pepper crops also produced well there this year.

The cabbage season has been a very successful one for the Glades farmers, this year, and now that marketeers have found that a first appearing and quality cabbage can be secured in the Glades, it is predicted that a record breaking acreage will be planted next year for the fall, spring and summer seasons.

Freight shipments showed a big decline this week as but 313 cars of produce were moved over the Florida East Coast system. Beans rated 215 ears, cabbage 20, celery 49, escarcote 12, mixed 4. The latter being the first shipment from Canal Point.

Boy Is "Sold" By Rotes For A Million

Homesite, May 9. (FNS)—Leave it to a politician to concoct a good idea for profitable entertainment!

At a meeting of the local club this week, a Homesite youth was sold at the auction block and sold for a cool million dollars. "To illustrate the value of young people in the community." No one changed hands, however.

Don Dene, was the youngest "sold" and highest represented forces with which the community youth must contend. Bidding started at \$10,000 and rose to \$70,000 when the force of "good" pulled strength with the force of "evil" and the boy was eventually sold for the million dollars.

LEHMAN LEE IN PAHOKEE

Lehman Lee, who about a year ago went to West Palm Beach, to follow his butcher trade, has returned to Pahokee and has assumed the management of the meat market of the Bessie store at J. C. Holloway, of South Bay. He has taken over the grocery management of the same store, while Ralph Mackey goes back to his former position in the Puckett store at South Bay. Pahokee friends will be pleased to welcome Lee back into their midst again. How those fish in Lake Okechobee and "Pahokee Creek" can possibly get away from Lee's fishing process is a question, for he is a skilled fisherman and always comes home with a sizeable string.
